edge finishes on
your cills

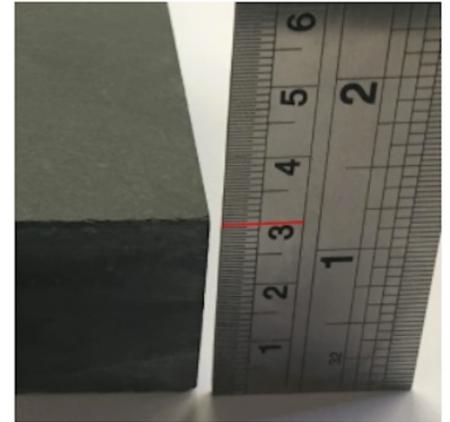

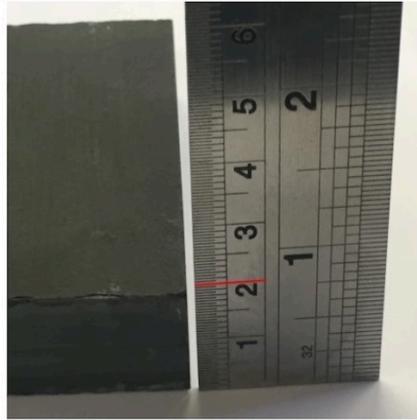

Brazilian Slate

All our Natural slate Cills are cut from Premium Brazilian slate in either a Black or Grey slate. This slate has a smooth naturally riven surface which makes it ideal to place objects on due to its flatness but still oozes character .

We carry large size slabs up to 2 metres long but generally people who have longer than 1500mm windows will have them cut into 2 equal size pieces to span the opening We have our own cutting facilities and can offer a range of different edge finishes

All our Cills are available in either 20mm or 30mm in thickness

Slate is suitable for use both internally and exterior as window sills and will last for many many years with little or no maintenance and what's more it looks fantastic when in the home or workplace.

As well as a standard clean sawn edge we are also able to finish them with the following edges :

- 10mm Bull nose
- 5mm Bevel
- 2mm pencil edge

Prices Slate cills

All prices shown are for Sawn edges and subject to vat
